DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/12/08 has been entered.

2. This application is in condition for allowance except for the following formal matters:

Claims 3, 8-11, 17, 18, 20-22, and 24-91, 93-99 are drawn to a non-elected invention.

Applicant has decided not to cancel the non-elected claims listed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Reasons for Allowance

3. Claims 1, 2, 4-7, 12-16, 19, 23, 92, and 100 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) , wherein the claimed invention comprises, in claim 1, an apparatus for performing

multiple procedures involving the retina of the eye, said apparatus comprising: said at least one imager configured to provide image data comprising at least two data types selected from the group consisting of data from ophthalmic images using confocal microscopy data, retinal polarimetry data, optical coherence tomography data, thermal image data, spectroscopic image data, refractometry data, and visible image data; and a data analysis module that interrelates data from said at least two data types to provide an interpretive result that is indicative of a presence of an abnormality that appears to involve a retinal portion of the eye, and where said abnormality could actually involve, at least in part, a diseased portion of the brain, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
